Av. dos Astronautas, 1758
São José dos Campos, SP
12.227-010 Brazil

LETTER OF SUPPORT

The Brazilian Association for Aerosol Research (BAAR) is very pleased to express its full support of your plans to bring the International Global Atmospheric Chemistry (IGAC) Conference and the International Commission on Atmospheric Chemistry and Global Pollution (iCACGP) Symposium to Brazil in 2014.

The IGAC conferences have been over the years an excellent forum to discuss BAAR activities, projects and results from its associates. Several of the leaders of BAAR have served at IGAC SSC for quite a long time, so we are fully aware of the IGAC community's expectations associated with the conference organization. Our motivation to collaborate with the IGAC 2014 conference is to foster more collaborations between Brazilian aerosol researchers and the overall IGAC community. The BAAR can help with the conference organization, as well as with fund raising to partially support the participation of more Brazilian students and researchers.

We look forward to collaborating with you on this project.

Prof. Paulo Artaxo
President
Brazilian Association for Aerosol Research.
