

São Paulo, 29 June 2011.

To  
Dr. Judith Johanna Hoelzemann  
IGAC 2014 Local Organizing Committee  
National Institute for Space Research  
São José dos Campos, SP

Dear Dr. Judith

Considering the general nowadays concerns about climate and environmental changes, the Brazilian Chemical Society understands the relevance of the studies and discussions undertaken by the International Global Atmospheric Chemistry (IGAC) and the international Commission on Atmospheric Chemistry and Global Pollution (iCACGP).

In this sense, we are glad to hear about your bidding proposal as we believe that the joint conference and symposium of these important organizations in Brazil will be very significant for the whole scientific community, specially for chemists, meteorologists, environmentalists, urban planners, medical community!

We, therefore, expect your proposal will be accepted by the leaders committees. Also, we can assure that Brazilian Chemical Society will do the best in order to promote the participation of its associates and, moreover, will be committed with raising funds from national and international research funding institutions to support the event organization.

Best wishes.

César Zucco

President  
Brazilian Chemical Society
